Should the Client (during the applicable Minimum Term) use an alternative carrier for calls once the Contract for the provision of the telephone line has commenced, or prevent AIMTECH from carrying calls in any monthly period so that AIMTECH considers that the call charges are significantly reduced in comparison to the Client's previous average invoicing profile, the Client agrees that AIMTECH may charge the Client the difference between the average monthly spend on calls prior to such commencement or prevention and the subsequent monthly spend on calls (if any).
- 5.4.4 The Fixed Network Services are provided solely for the Client's use and the Client may not resell or attempt to resell the Fixed Network Services (or any part of them) to any third party. - 5.4.8 The Client acknowledges that the communication lines element (if any) of the Fixed Network Services is provided from infrastructure which is or may be shared by other users and AIMTECH owes a duty to these users as a whole to preserve its network integrity and avoid network degradation. If, in AIMTECH's reasonable opinion, AIMTECH believes that the Client's use of the Services has or may adversely affect such network integrity or may cause network degradation, AIMTECH may change the Client's chosen access rate or manage the Client's Services as AIMTECH sees fit in the circumstances.
- 5.4.9 To prevent spam from entering and affecting the operation of AIMTECH's systems and the Fixed Network Services, AIMTECH may take any reasonable measures or actions necessary to block access to, or delivery of, any e-mail which appears to be of an unsolicited nature and / or part of a bulk e-mail transmission. AIMTECH may also, but is not obliged to, use virus screening technology that may result in the deletion or alteration of e-mail and/or e-mail attachments. AIMTECH shall have no liability whether in contract, tort (including without limitation negligence and breach of statutory duty) or otherwise if the virus screening technology is not completely effective in any way, including (without limitation) against unsolicited emails or against any viruses, worms, Trojan horses or other programmes or devices that are apparently intended to access and modify, delete or damage data file(s) or computer programme(s).
- 5.4.10 The Client acknowledges that, in order to use the broadband element (if any) of the Fixed Network Services, the Client needs an existing telephone line (if not provided under the Contract) and a personal computer ("**PC**") of a minimum specification suitable for the application. The Client is responsible for ensuring that compatible cables and extension leads are used to and from their telephone socket, modem and PC in order to use the Service.
- 5.4.11 In circumstances where the Client receives only the broadband element of the Fixed Network Services from AIMTECH, the Client remains responsible for making payment to the Client's fixed line telephony services provider for all rental charges relating to the Client's relevant telephone line (together with any repair and maintenance charges) and all call charges from the Client's fixed line telephony service provider.
- 5.4.12 The Client agrees that the Phone-paid Services Authority may monitor any End User Service at any time.
- 5.4.13 In respect of each End User Service which requires the approval of the Phone-paid Services Authority pursuant to any regulation or code of practice, the Client shall, before such End User Service (or any change thereto) is made available to callers, submit to AIMTECH written evidence of such approval.
- 5.4.14 The Client shall use all reasonable endeavours to ensure that the number of telephone calls made to the Number(s) do not significantly exceed the Client's capacity to answer such calls or cause congestion (the existence of congestion to be reasonably determined by AIMTECH taking into account normal levels of traffic on the network). Where AIMTECH notifies the Client of the occurrence of any such congestion or misuse, then the Client shall immediately take all reasonable steps (which shall include, but not be limited to, arranging additional network capacity, adjusting the Client's promotional activities or using call bureau, for the relevant period) to prevent such congestion and/or misuse continuing.
- 5.4.15 The Client acknowledges that the Fixed Network Services are not designed to be a carrier interconnect and that the Fixed Network Services will not support diallers of any description.
- 5.4.16 Use of any call recording feature and/or storage use or access of any data regarding or taping any use of the Services by or on behalf of Client or its Clients or End Users may be subject to laws or regulations and Client is solely responsible for and obligated to determine the lawful basis for such activity and provide any required notification to participants or users prior to commencement of said recording, storage, use or access. Client acknowledges and agrees that AIMTECH has not and is not required to provide the Client with any analysis, interpretation or advice regarding such data or applicable laws or regulations and nor does AIMTECH guarantee the accuracy, integrity, security or quality of the Client's content.
- 5.5 TRANSFER FROM THIRD PARTY SUPPLIERS
- 5.5.1 Where the transfer of lines and services from third party suppliers is specified by the

Client, then the provision of any and all relevant existing services supplied to the Client by such third party supplier will be automatically transferred to AIMTECH and charged for in AIMTECH's invoices in accordance with the Tariff.

5.5.2 The Client and not AIMTECH shall be liable for any charges (including without limitation any early termination charges) made by third party suppliers for any transfer of lines and services or otherwise, unless it is clearly identified and agreed in writing on the Purchase Order Form at the time of AIMTECH formally accepting such Purchase Order Form that AIMTECH will pay for specified charges.

- (b) the VOIP service may sometimes be limited, unavailable or disrupted due to events beyond AIMTECH's control e.g. power disruptions, failures or the quality of any connection;
- (c) wherever possible, alternative arrangements should be made by the Client and a traditional PSTN telephone line maintained at each Site;
- (d) the quality of a call made via VOIP might be more akin to that experienced when making a call from a mobile network service to another mobile network service and this means that it could be less than the quality experienced on a traditional land line;
- (e) if the Client uses the VOIP service to make Emergency Calls, the location information received by the emergency services will be limited to the installation address of the Site, which may not be the location from which the call originated, and as such the Client may be required to provide information about the Client's location to the emergency services to allow them to respond;
- (f) Emergency Calls made using the VOIP service may fail if there is a power failure or connection failure;
- (g) the ability for the Client to make Emergency Calls cannot be guaranteed;
- (h) a VOIP originated Emergency Call will not receive the same network priority at all points on the network as that which an Emergency Call made on a mobile network or on a circuit-switched fixed line will receive; and
- (i) the Client's equipment used to access the VOIP Fixed Network Services requires mains power to make Emergency Calls.

5.6.2 The Client shall not use the bandwidth allocated to the VOIP service for any other purpose other than making and receiving VOIP calls. Should this prohibition not be complied with it is likely that the quality and availability of the VOIP services shall be materially reduced.

5.6.3 The Client acknowledges and agrees that the following items may be required at the Client's Site before the VOIP Fixed Network Services can be commissioned:-

- (a) IP phones or soft phones; and/or

- 23.15 Except with the prior written consent of the other party, neither party shall:
- 23.15.1 make any public statement about the Equipment and/or Services or otherwise publicise a Contract or any information relating to it; or
- 23.15.2 use any trademarks or identifying logos owned or licensed to any member of the other party in any manner.
- 23.16 Nothing in a Contract is to be construed as establishing or implying any partnership or joint venture between the parties, or as appointing any party as the agent or employee of any other party. No party shall hold out any other party as its partner or joint venturer. Except, and to the extent, that a Contract expressly states otherwise, no party may incur any expenses or negotiate on behalf of any other party or commit any other party in any way to any person without that other party's prior written consent.
- 23.17 Each party shall do and execute, or arrange and procure for the doing and executing of, any act and/or document reasonably requested of it by any other party to implement and give full effect to the terms of the relevant Contract.
- 23.18 A Contract constitutes the entire agreement between the parties and supersedes any prior agreement or arrangement in respect of its subject matter. Save in the event of fraud or fraudulent misrepresentation, neither party has entered into a Contract in reliance upon and nor shall they have any remedy in respect of, any representation or statement (whether made by the other party or any other person) which is not expressly set out in the Contract.
- 23.19 A Contract may be entered into in any number of counterparts and by the parties on separate counterparts, all of which taken together shall constitute one and the same instrument.
